## PASSPORT ANNOUNCES COMMODORE MUSIC PRINTING SOFTWARE FOR THE PASSPORT MIDI INTERFACE™

Introducing "The Music Shop™", the definitive music printing and editing package for the Commodore 64 and any MIDI keyboard. Unlike other Commodore printing packages, The Music Shop™ was designed to be a professional tool for entering, editing, printing, and playing back music.

With The Music Shop™ you can create compositions by picking up musical symbols with your joystick and place them onto the staves, or you can input notes directly from your MIDI keyboard. Write for treble clef, bass clef, and piano score formats with note and rest values from whole to thirty second. Correctly handles ties, repeats, triplets, and 8 va's. Also included are first and second endings for verses, choruses, codas, etc.

Pull down menus make it fast and easy to use. Compose in any key, time signature, or tempo. Full joystick based editing including cut, copy and paste lets you move measures and themes around.

Save your compositions on disk and print them out. With Music Shop you can print out standard sheet music by the page or the entire score.

The Music Shop™ -- The new standard in music printing software, available for the Passport MIDI Interface™ and Commodore 64 computer.

"The Music Shop™" is a trademark of Broderbund Software.

"The Passport MIDI Interface™" is a trademark of Passport Designs, Inc.
